

Mutualink Edge Interoperability Solution

Release ME3.1

Document Version 1.2

- Key Benefits**
- Self-service administrative interface: Edge Device Manager (EDM)
 - Secure peer-to-peer interoperability. AES encrypted communications
 - Choose Edge as a Service (EaaS) or installed Edge Concentrator device

Mutualink Edge puts the power of Mutualink's collaboration suite where the users are: in the office, on the road, in the field. Share radio, video, voice, text and data files securely, in real time, using any of the following supported operating systems and devices:

Supported Devices	Operating Systems
<ul style="list-style-type: none"> • iPhone 5/5C/5S/6/6S/6 Plus/SE • iPad 3rd Generation and higher • iPad Pro • iPad Mini¹ 	8.0 and higher
Android Phone ² /Tablets	4.4 and higher To check if your Android device is supported, tap Play Store from your device. ³
Windows® <ul style="list-style-type: none"> • 2.0 GHz Intel i3 (or comparable AMD processor) • 2GB Ram • 300 MB of free disk space • Access to the Internet (not blocked by corporate firewalls) • Microphone and Speakers • Administrative rights to Windows device (ability to download software) 	7, 8, 8.1, 10 (Windows RT not supported) ⁴

Administration	
User Management	Self-service
Password Reset	Self-service via Email for EaaS

¹ The first generation iPad Mini using WiFi for network connectivity in an environment with many WiFi access points/routers has video performance issues. If available, it is recommended to use LTE cellular data if you run into a problem using WiFi.
² Some Android phones running on a Sprint Network have issues receiving video. Contact Mutualink for more information.
³ In the Play Store search for Mutualink. If the search does not return an entry, your device is not suitable for the Mutualink application. You will need to use a supported device type.
⁴ Windows Service Pack 1 (SP1) and Microsoft .NET Framework 4 required.
