US Patents: #7,643,445, #8,320,874, #8,929,851, #8,364,153, #8,811,940, #9,581,816, #9,426,433, #9,615,218, #9,654,980, #9,654,200, #9,787,940, #9,681,301, #9,794,761.

Complex Problem Made Simple:

- **User Interfaces** enable access to the technology through software client or appliance

- **Gateways** enable onboarding media and can be actual or virtual.

- *Securely Bridging Ecosystems*
