

Public Safety & Security

Transforming the Nature of Public Safety, Emergency Response and Large-Scale Community Management with True Interoperability®. The World's Leading Automated Emergency Response Solution.

Instant, Secure Sharing of Video, Radios, Voice Communications and More | Providing the situational awareness police and other first responders need to resolve incidents quickly and efficiently.

One System That Connects All Prior Security Infrastructure | A device agnostic platform, compatible with all radios and able to bridge disparate radio systems.

Fast and Easy Connections | With the press of a button, schools, houses of worship, facilities and other communities can instantly initiate an incident and invite-in police and other first responders.

Key Benefits and Features

- Live Video Streams plotted on Smart Floor Plans overlaid on aerial images
- Connects all prior security investments to create one unified system of defense
- Achieves True Interoperability® for seamless cross-communications
- Scalable solution that can be used for daily operations and special events with customizable and secure private talk groups for your teams

Beyond the Panic Button | What Happens Next is Everything

A panic button on its own saves 5-10 seconds at most compared to a traditional 9-1-1 call. Mutualink's Automated Emergency Response Solution converts panic buttons, cameras, and radios into a unified system of tools that help police and first responders get the information they need before arriving on the scene, Saving Minutes When Seconds Count™.

Maintain Control and Privacy | With Ease of Access Sharing

Mutualink's solution keeps control over systems with the facility, ensuring their ownership and privacy while enabling them to easily grant temporary, invitation-only access to police and other first responders as needed. With the press of a button, schools, houses of worship, facilities and other communities can instantly initiate an incident and invite-in life-saving resources.

Smart Integrations Include:

- ◇ Gunshot Detection
- ◇ Hardwired, Wireless and Mobile Panic Buttons & Location Sensors
- ◇ Door Alarms & Access Control
- ◇ Pressure & Temperature Sensors
- ◇ Chemical & Biological Sensors
- ◇ Pressure & Temperature Sensors
